

Environmental Management Programs

ENVIRONMENTAL MANAGEMENT PROGRAMS (4.3.4)

Environmental Management Programs (cont.)

This section of ISO 14001 requires four distinct steps:

1. The organization must demonstrate that it has established a management program for achieving its objectives and targets.
2. Assigned responsibility at all appropriate levels.

Environmental Management Programs (cont.)

This section of ISO 14001 requires four distinct steps: (cont.)

3. The organization must specify time frames and mechanisms needed.

4. The organization must employ “continual improvement” when appropriate.

Environmental Management Programs (cont.)

This section of the standard completes the “**PLANNING PROCESS**” of ISO 14001. The planning process contained the following elements:

1. Environmental Aspects,
2. Legal and Other Requirements,
3. Objectives and Targets, and
4. Management Programs

Now it is time to move to Implementation!
